

Are You Prepared If Severe Weather Strikes?

Severe Weather Preparedness Checklist:

- Prepare an emergency kit with enough food, water and other supplies to last at least 72 hours.
- Create and discuss an emergency plan with your family. By planning in advance, you can determine how you and your family members will get to a safe place; how you plan to contact one another; and how you will reunite.
- Stay informed by signing up for local weather and emergency alerts. You can also receive up to date information by following local public safety agencies on Facebook and Twitter.
- Sign up and create a Safety Profile at www.smart911.com to give 9-1-1 call takers and first responders valuable information about yourself, family members, your home, pets and even vehicles that will automatically display on the 9-1-1 call taker's screen when you make an emergency call. It's private and secure and you control what information is in your profile. These details can save valuable seconds or even minutes during an emergency.
